WEST HADDON PRIMARY SCHOOL

Clubs and Activities outside of School

With so many electronic devices for children, exercise and outside play is becoming even more crucial for child development. There are a wide range of activities locally, such as Cubs, Brownies, football, hockey etc. but family walks and bike riding are equally beneficial. If you are worried about your child's screen time why not try to schedule some of these types of activities into your busy week so that your family can reap the following benefits:

- Improved memory and brain function.
- Protection from illness.
- Weight management.
- Improved heart health.
- Improved quality of sleep.
- Reduction of anxiety and worries.
- Development of strong bones.
- Improved fitness.

If you are struggling to make contact of any clubs in the area why not ask Clare Jones, our PSA, who can signpost you to their main contact.

Headteacher and Value Stars

GOD AND THE BIG BANG

Children in Years 5 and 6 enjoyed meeting some scientists last week. They learnt about a scientific view about the creation of the world as well as considering whether faith fits into this view. The children asked big questions and considered different points of view.

OUR FOCUS FOR WORSHIP IS
EASTER

It's been a Busy Day!

Today we have had a pyjama day in aid of the disaster appeal which is supporting earthquake victims. The PTA have also been busy sorting out Mothers' Day gifts. Thank you everyone for your support with these events. The children have had a great time and we have raised some funds for the PTA and £215.65 for Disasters Emergency Committee.

Dates for the Diary

March
